# SHAREVAULT

## FOR LIFE SCIENCES

Revised Jul.  
**2021**

Helping biotechs and pharma organizations prepare for successful fundraising, partnering and secure document sharing with partners and investors.

# SHAREVAULT FOR LIFE SCIENCES

ShareVault is the only secure document sharing solution with features developed specially for life sciences applications.

The inclusion of biopharma-specific and other stringent security features, ShareVault meets the special needs of the industry and has become the virtual data room platform for choice for 9 out of 10 companies in life sciences.

## APPLICATIONS

ShareVault virtual data rooms can be used to protect your documents and IP throughout the life cycle of your business from fundraising to partnering to IPO or acquisition. As well as numerous internal and regulatory applications.

■ Partnering & Licensing

■ Fundraising

■ M&A / IPO

■ Corporate Repository

■ CRO & CMO SOPs  
and Audits

■ Regulatory Document  
Collaboration

■ Academic & Research  
Tech Transfer

# WHY USE SHAREVAULT FOR SHARING CONFIDENTIAL LIFE SCIENCES DOCUMENTS?

ShareVault's features are tailor-made to provide you document control, insight into user activity and easy organization, so you can present your documents in an attractive, professional manner, with ease.

It even has seamless integration with popular file-sync and share platforms you already use to share docs (not so securely) in the Cloud: Dropbox, Box, Google Drive, Office 365, SharePoint, and DocuSign.

## FEATURES

Your virtual data room should be simple and easy to use. With ShareVault's features, you get confidence in document security and peace of mind with a great user experience:

### ENHANCED FOR LIFE SCIENCES:

-  Inter-document hyperlinking lets you upload documents and preserve all your links
-  Handles large volumes of documents & big files, with features like bulk-upload, auto-unzip, auto-PDF
-  Integrated eCTD viewer for streamlined review of regulatory submissions, such as INDs or NDAs
-  Special viewers enable continuous scrolling of large files and clinical data.

### GRANULAR DOCUMENT CONTROL:

-  Customizable watermarking based on policies
-  Secure printing blocks printing to PDF
-  Remote shred previously downloaded documents
-  Block screen scraping, video and screenshots

### DEAL INTELLIGENCE:

-  Detailed audit trails and user analytics, including specific pages viewed, time spent reading and more, reveal your best prospects.

### EXCEPTIONAL EASE OF USE:

-  Smart search & filters
-  Drag and drop to upload and organize content organization
-  Batch print, document download & deletion and user setup
-  Hierarchical tags for easy permissioning
-  Simultaneous viewing of multiple documents
-  Automated PDF conversion
-  24/7 customer support & online tutorials

## OUR CLIENTS LOVE HAVING

- The unmatched document control and security
- Deal intelligence from user & document activity analytics
- An easy-to-use data room that works with tools you already use

## TESTIMONIALS

*Chosen by BIO and more than 50 BIO affiliates, ShareVault is the virtual data room of choice for life sciences organizations.*

“ *During the last five years we’ve used ShareVault to securely share sensitive clinical development data with investors and corporate partners on a global basis. ShareVault is more intuitive and user-friendly than other platforms we’ve used and the technology performs well over a wide range of operating systems, browsers and security barriers.*

*We’ve also found it invaluable to be able to monitor data room activity (down to the page level) of individual users, informing us on the interest level of our clients and allowing us to have constructive follow-up discussions.*

”

—Jonas Ekblom - CEO, Promore Pharma
