

SHAREVAULT FOR LIFE SCIENCES

ShareVault is the only secure document sharing solution with features developed specially for life sciences applications.

Standing alone with biopharma and other unique security features, ShareVault meets the needs of the industry and grows with its customers.

APPLICATIONS

- Partnering & Licensing
- Fundraising
- M&A / IPO
- Corporate Repository
- Regulatory Document Collaboration
- CRO & CMO SOPs and Audits
- Academic & Research Tech Transfer

SHAREVAULT CUSTOMERS...

- Have confidence in unmatched document control and security
- Gain intelligence from user & document activity analytics
- Benefit from a simple, easy-to-use solution that works with tools you already use.

Chosen by BIO and 40+ BIO affiliates, ShareVault is the virtual data room solution of choice for life sciences organizations.

“ During the last five years we’ve used ShareVault to securely share sensitive clinical development data with investors and corporate partners on a global basis. ShareVault is more intuitive and user-friendly than other platforms we’ve used and the technology performs well over a wide range of operating systems, browsers and security barriers. We’ve also found it invaluable to be able to monitor data room activity (down to the page level) of individual users, informing us on the interest level of our clients and allowing us to have constructive follow-up discussions. ”

—Jonas Ekblom, CEO, Promore Pharma

WHY USE SHAREVAULT FOR SHARING CONFIDENTIAL LIFE SCIENCES DOCUMENTS?

ShareVault's features are tailor-made to provide you with document control, insight into user activity and easy organization, so you can present your documents in an attractive, professional manner.
